I was young when my mother brought us to visit her and so I do not remember much from then. I do remember that she always had many animals and I loved playing with her piano that fascinated me. Through the encounters over the years and my more recent relationship with her in the last 2 years, I have come to understand my meme. She has always been full of love and compassion and would do anything for anyone, especially the people she loved. She was always very independent, loved animals, laughing, listening to Elvis, baking, crafting, and her family. We share many of these things in common which helped strengthen the bond that we formed. She was one of those amazing people that were easy to love. Though our time together was cut short, I will always have the memories and our bond and we are both at peace with her departure.

To Betty's Family, My sincere condolences to you all. As a CNA at Woodlake at Tolland, it was my pleasure to get to know Betty. I will miss her sense of humor, her kind spirit and watching the Yankees with a true fan. She spoke of her family often and was a very proud mother and grandmother. With Deepest Sympathy, Anmarie
