In my heart you will always be my constant companion. You said I would forget you but I never did. Couldn't anyone compose an obituary to describe what the world was like with you in and how empty it is now? I'll see you again over the way, where we're both free.Finoula

**William Chase** sent a virtual gift in honor of Dorray.

I am so sorry to hear of Ray's passing. I worked with Ray for many years at Gerber Scientific. He was very methodical and he taught me a lot in the quality control dept. He always put a smile on my face with his wit and sense of humor. May he rest in peace.Bill Chase

I will miss Uncle Ray tremendously. You were the only Uncle that I've known and I appreciate the effort, time and love that you put in to getting to know me. Through the years since my stroke, you stayed in touch and always let me know you cared. You brought a special joy to my life and I'm very grateful for the life you lived. With love,Mike Opitz

I had the pleasure of working with Ray at Gerber Scientific Products for a number of years. I enjoyed his dry sense of humor and wittiness. I wish I would have kept in better contact with him after his retirement. He was very special in many ways. Harry
